

14 August 2006  
ASX/Media release

**Australian Pharmaceutical Industries  
Appendix 4E to be Lodged with ASX Today**

**Audited Statutory Accounts to be Lodged on 17 August**

API will lodge its Appendix 4E and unaudited financial results for FY2006 with the Australian Stock Exchange (ASX) later today. As announced on 11 August, a briefing on the results will be held at 1pm.

After advice from the company's auditors, on 11 August API requested a further extension from the Australian Securities & Investments Commission (ASIC) to complete its audited statutory accounts. This delay is related to finalisation of the notes to the accounts for FY2006. ASIC has granted the extension and API now expects to lodge its audited statutory accounts with the ASX and ASIC on Thursday 17 August 2006.

API's initial extension from ASIC required the company to lodge its Appendix 4E and audited statutory accounts for FY2006 with the ASX on 14 August 2006, after which it was expected that API shares would recommence trading. As a result of the further extension, it is now anticipated that API shares will recommence trading on or after 17 August 2006.
